Products

GEG offers a comprehensive portfolio of automotive and heavy-equipment spare parts for passenger vehicles, commercial fleets and industrial equipment.

Our range includes batteries, filters, tyres and a wide selection of replacement parts, enabling customers to source multiple product categories from a single trusted partner.

Product strengths

- Genuine OEM and premium aftermarket parts
- Broad multi-brand coverage
- Extensive range across major vehicle systems
- Consistent quality and traceability

Operational benefits

- Reliable fit and compatibility
- Consistent operational performance
- Extended component durability
- Support for preventive maintenance

Spare parts portfolio

Discover GEG's portfolio of automotive and heavy-equipment spare parts, covering a wide range of vehicle systems and applications.

Batteries

Starting, deep-cycle and heavy-duty batteries for passenger, commercial and off-road applications.

YUASA · BOSCH · VARTA · EXIDE
and other leading manufacturers.

Filters

Oil, air, fuel and cabin filters engineered for engine protection and extended service life.

FLEETGUARD · BOSCH · MANN · WIX · FEBI · CATERPILLAR ·
FILTRON · DENSO · DONALDSON
and other OEM and aftermarket brands.

Tyres

Full range for passenger cars, commercial vehicles and heavy equipment, matched to load, terrain and duty cycle.

Passenger · commercial · heavy-equipment, from leading
tyre manufacturers.

Other spare parts

Brakes, belts, bearings, electrical components and further mechanical parts for automotive and equipment fleets.

Available across a wide range of OEM and aftermarket brands.

Technical support

Beyond supplying lubricants and spare parts, GEG provides the technical expertise and operational support needed to help customers select the right products, optimise maintenance and ensure reliable supply.

24/7 support

Expert assistance to support performance and operational continuity.

Product selection & compatibility

Support in identifying the right spare parts for each vehicle, equipment and application.

Custom sourcing

Sourcing of products beyond the standard portfolio, tailored to specific models, applications and volume requirements.

Private label

Spare parts manufactured under your own brand, tailored to your specifications and packaging requirements.
